

Technology's to learn
different things

By Maria

1#

The world globe

The word globe is a fun way to learn about our world and explore different countries and continents!

This globe is a good way to learn for all ages

The way to use it is that you pick up the pen and tap the pen on any continent or country and on the little screen it will show you a video telling you some facts.

2#

The microscope

The microscope can teach us about nature and parts of the body

The microscope is a good way to learn for all ages

How to use the microscope

First you push a draw at the front to open a draw and then pick from 20 different samples and place under the microscope and then you either learn a fun fact about the sample or do a quiz on it.

3#

Art

Art is a good way to express yourself in many ways and in art there are no rules or limits you just do what you want in art there is no good or bad.

4#

Bee Bots

Bee bots are mostly for ages 4 to 7 to learn about coding and direction

How you use them

First you turn it on and find a bee bot mat, secondly you roll the dice and the letter it lands on is the letter that you make your bee bot drive to that letter. Once done so you can do it again push the  to clear it and do it again.

5#

Merge cubes

Good for all
ages to learn
about multiple
different
things

How you use it is you make a cube , go in the merge cubes app pick a topic to learn about put up your cube in front of the screen and say you picked the world the cube would transform into the world and teach you about it.

The end
